## FREEDOM TO CREATE *YOUR STYLE*

Today, music, art, sport, fashion and technology are all merging into one creative landscape that provides inspiration and opportunity for the creator in all of us.

When a powerful, easy-to-use, visual design tool comes along that takes you on a creative journey you never expected, well, that's special – and that's **FREESTYLE**.

The word **FREESTYLE** is a testament to musical expression and creative exploration, past and present. We believe we've been able to extend that meaning to our new creator tool for custom sublimated apparel and headwear design. The ability to ebb and flow creatively and bring to life what you dream up is what **FREESTYLE** is all about.

## ARTWORK

**How to submit:** For quickest and most economical order process, please submit artwork in vector format. We accept either .eps, pdf, or .ai files. Files submitted in this format must be of proper resolution and true vector artwork or they will need to be resent or redrawn. All other file types can be redrawn but will not be exact match and will extend lead-time.

**Art approval:** Art approval is your sign off on the artwork, sizes, quantities, and roster telling us to proceed with an order you have already placed. We do everything possible to ensure order accuracy, but ultimately need your final sign off to produce the garment accurately. It is critical to give the art approval process a thorough review. Lead times do not start until you have provided approval on the artwork, roster, and all relevant order information.

**Roster approval:** It is important to preview each image during roster entry to ensure that the selections render correctly. This step allows the opportunity to go back and make changes to the design prior to order submission. The customer is responsible for proofing and approving all names and numbers. Utilize our online roster form for ease of submission.

## COLOR

Augusta Sportswear offers a robust color pallet to cover any need. Colors are intended to match each of our brands stock color standards. These colors are calibrated regularly on all equipment. Despite all efforts to perfectly match the color standard, it is impossible to guarantee an exact match from order to order.

Online designs feature RGB values which can vary from one monitor to another. In production, the RGB values are converted to CMYK values for printing. Augusta Sportswear Brands will not be responsible for color variations between online previews and production garments.
